SATISFACTION

TENNIS

TENNIS... What a sport! It can be enjoyed by the young, the old, the disabled, the rich, the underprivileged... just about anyone. I grew up learning how to play at a public park with over thirty-six tennis courts in Mobile, AL, (Mobile Tennis Center). It was there that I developed a strong love for the game. As I grew up playing junior tennis which evolved into college ball at Mississippi State University, I learned how to repair and resurface tennis courts in order to earn extra money while in school and during summer breaks. As a second generation sports contractor, my early experience with sports surfacing, (over 18 years), taught me many techniques and skills that I have used in a number of other related industries. Wilson Sports, LLC is a culmination of the skills, business experience, quality control and expertise that I have developed over the past twenty-five years in pavement repair and construction. I hope you will give Wilson Sports the opportunity to provide you and your facility with the quality surface it deserves.

Thank you,

SERVICES

- Repair and Resurfacing of Concrete and Asphalt Tennis Courts & Multipurpose Areas
- Accessories (nets, posts, windscreens, etc.)
- Specialized Patented* Crack Repair
- Facility Design and "Ground Up" Construction
- Certified DecoTurf® Contractor/Installer
- American Sports Builders Association

SCOPE & MATERIALS

Repair: Understanding concrete and asphalt repair takes years of experience. Facilitating state-of-the-art materials, Wilson Sports has developed, over time, some of the most advanced and successful crack and spall repair methods in the industry. By combining special adhesives, bonding agents, pavement fabrics and leveling techniques – different types of active pavement cracks can be controlled and made impermeable from the smooth playing surface above.

Materials: Wilson Sports uses the highest quality material components from companies like *Tensar International*, *Saint Gobain International* and most importantly – *Decoturf-Decocolor*, (surface of the **US OPEN**) to provide the highest quality base repair and playing surface.

Accessories: When it comes to court accessories, we provide tennis nets, windscreens, net posts and other court products to fit your need and budget. From the highest quality *J. A. Cissel* nets, post and windscreens to more cost effective brands, we can supply your needs quickly and at competitive prices.
